Aptech Garden Center - Saddar Karchi

- 86% GPA
- Certificate Awarded with Distinction

Intermediate, Computer Science, Expected in 05/2026

Women's College Shahrah -e- Liaquat - Karachi, Pakistan

PROFESSIONAL SUMMARY

I'm a software enthusiast with a strong interest in both backend and frontend development. I've worked on projects like building a hospital management system with Laravel and MySQL, and creating marketing materials with Canva for local businesses. Over time, I've built skills in PHP, Laravel, HTML, CSS, JavaScript, and database management with MySQL/SQL, along with using GitHub for version control. For me, coding isn't just about writing functions, it's about creating something that actually solves a real problem.

EXPERIENCE

Web App Developer, 08/2025 to 09/2025

Dreamweaver - Saddar , Karachi

- Developed full-stack web application utilizing HTML, CSS, JS, Bootstrap, JQuery, Laravel, and MySQL. Implemented role-based authentication to ensure secure access for Admin, Doctor, and Patient. Integrated Google API for streamlined login and email service for password recovery. Designed user-friendly dashboards tailored for doctors, patients, and administrators. Followed SDLC methodology and created comprehensive documentation including SRS, ERD, and UML diagrams.
